Kids' Cyber Resilience – Online Workshop for Educators

CALL FOR APPLICATIONS – Middle East, Turkey & Africa

23.09.2023

Kids' Cyber Resilience Online Workshop for Educators

Call for Applications - META

Kaspersky is one of the world's largest privately-held cybersecurity companies with threat intelligence experts active in every region. It has used its unique experience and expertise to undertake extensive research on kids' online safety.

The Kids' Cyber Resilience Project aims at educating children on how to keep themselves safe online while helping them build resilience from within.

This Project is a multi-stakeholder project with parents, educators, students, NGO and government representatives.

Call for Applications

Kaspersky is seeking applications from **homeroom teachers and administrative staff** to take part in our workshop series aimed at helping them learn about the basics of cyber hygiene, get familiar with Kaspersky's free tools and resources for teaching online safety in the classroom, and how to support kids become cyber-resilient.

Duration

1.5 hour (90 minutes) per session each Saturday for 3 weeks (please see Timeline below)

14 October | 28 October | 11 November 2023

Target Audience

- Homeroom teachers
- School administration & management staff

Goals

At the end of the workshop, participants are expected to:

- **Identify** the online threats their students face;
- **Understand** the different forms of online threats and the ways how their students should **respond** to these threats;
- Enumerate ways to support kids on how to **recover** from unpleasant experience online;
- **Learn** best practices among peers and from Kaspersky, and to apply what they have learned to their practice.

Learning Outcomes

- Increased cybersecurity awareness
- Increased confidence to share cyber hygiene and resilience practices with kids
- Better understanding of kids' behaviors online and offline
- Improved capacity to support kids to recover from setbacks and learn from their experiences

Methodology and Duration

Weekly synchronous live group sessions with experts for 1.5 hours, totaling 3 weeks; exercises weaved into each lecture

- Lectures
- Facilitated group work
- Q&A/Reflection session

Application Requirements

Interested applicants must register their interest by [filling out this form](#).

Applications must be received by 23:59 (GMT+8), 21 September 2023 and will be accepted on a rolling basis.

What's in store for you?

- ✓ Certificate of attendance issued by a leading cybersecurity firm
- ✓ Free learning tools
- ✓ Cool prizes (if you actively participate)
- ✓ Confidence to teach online safety to kids

Timeline

2023	Activities
August 16	Call for Applications launch
October 12	Application deadline
October 14	Session One with Kaspersky's in-house expert
October 28	Session Two with Kaspersky's in-house expert
November 11	Session Three with an invited speaker Graduation

Program Overview

Framework

A. Identify & Understand Issues

- i. Agenda-setting
About the project
- ii. Cyber threats in schools (statistics, threats, attack vectors)
 - Privacy risks
 - Online fraud (popular attack methods & how to be safe)
 - Cyber bullying
 - Misinformation
- iii. Issue-based analysis; provide context first to justify why it is important to practice cyber hygiene

B. Response & Recover Mechanisms

- i. Enumerate ways on how kids should respond to different cyber threats (best practices)
- ii. Scenario-based exercises

C. Prevent & Learn

- i. Cyber hygiene
 - Password security (how to make secure passwords, how to protect them)
 - Safe internet usage (how to surf the web safely)
 - Social media safe usage (how to protect account, what to post, how to manage your digital footprint)

D. Building Kids' Cyber Resilience

- i. Impact of internet on kids' brain development and mental health
- ii. Understand behaviors online and how they manifest the same offline
- iii. Case studies
